Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 4, 2005 has been entered.

This application is in condition for allowance except for the following formal matters:

The drawings are objected to because in figure 1, "switch 11" fails to include the reference numeral 11. In figure 2, laser sources 10a-d and fibers 12a-d, coupler 12e, fiber 12f, waveguides 20 are not properly labeled. In figure 2, support 14 is not seen as disclosed on page 5 of the specification. Figure 1 appears to use reference numeral 24 to depict a waveguide, however, figure 3 uses reference numeral 24 to depict a faceplate. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims 1-8,10-16 are objected to because of the following informalities: In claims 1,14, line 1, "TPSF" should be defined. It should be noted that a previous version of the claims included a description of the acronym. In claim 7, line 3, "detection" should be "collection". In claim 8, it is unclear as to whether the camera set forth on line 2 is the same camera set forth in claim 1. In claim 8, line 3, "said detection optical fibers" lacks antecedent basis. In claim 12, line 3, "detection" should be "collection". Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
